4. FIRST AID MEASURES

If poisoning occurs, immediately contact a doctor or Poisons Information Centre (Phone 13 11 26), and follow the advice given. Show this Material Safety Data Sheet to a doctor.

- Inhalation:** If dust is inhaled remove to fresh air and keep at rest. Seek medical advice. The strong odour associated with the product is due to the food-flavouring attractant blends in the formulation and is not associated with the active ingredient.
- Skin contact:** Wash off skin immediately with soap and plenty of water. Seek medical advice if symptoms persist.
- Eye contact:** Rinse eyes immediately with plenty of water for at least 15 minutes (including under eyelids). Remove contact lenses (if relevant) after the first five minutes, then continue rinsing the eye. Seek medical attention if irritation develops and persists.
- Ingestion:** Call a doctor or poisons information centre immediately. Rinse mouth. Induce vomiting only if: 1. Patient is fully conscious, 2. Medical aid is not readily available, 3. A significant amount (more than a mouthful) has been ingested and, 4. Time since ingestion is less than 1 hour. Vomit should not be allowed to enter respiratory tract. This product contains a taste deterrent and ingestion of large quantities is unlikely.
- First Aid Facilities:** Provide washing facilities in the workplace.
- Treatment:** Apply basic aid and decontamination procedures. Treat symptoms. Monitor respiratory and cardiac functions. In case of ingestion, gastric lavage should be considered in cases of significant ingestions, only within the first 2 hours. However the application of activated charcoal and sodium sulphate is always advisable.

5. FIRE FIGHTING MEASURES

- Extinguishing media:** Use water spray, alcohol resistant foam, dry chemical or carbon dioxide. Avoid use of high volume water jet.
- Hazards from combustion products:** In the event of fire the following may be released: Hydrogen chloride, hydrogen cyanide, carbon monoxide and nitrogen oxides.
- Precautions for fire fighters:** Fight fire in the early stages if safe to do so. Wear respiratory protection. Well ventilated areas: wear full face mask with combination filter eg., ABEK-P2 (offers no protection from carbon monoxide) Enclosed premises: wear respirator with independent air supply. Make provision for product and fire-fighting water to be retained.
